

ACCENDO *counseling*

Dear Parents and Guardians:

My name is Angelle Schott. St. Peter Catholic School has contracted me to aid in the students' success. I have a private practice in Castle Rock and am a licensed Clinical Social Worker CSW.09929698. I have been in social work in various capacities for the last 20 years, most recently working with adolescents and youth in my catholic parish and private practice.

This partnership between myself and St. Peter Catholic School will allow your child/student to be able to receive additional services. These services may include class/grade activities, small group and/or individual support. For your student to receive individual support, we must have a permission form signed by you.

To receive individual support, a student may be referred by their parent, teacher, or principal. Students can also request to see me. I am available in the school for approximately 5 hours a week to talk about things that may impact their learning. Students can feel free to talk about what worries them and to ask questions.

On average, I will work with a student for 6 sessions at school. If further support is needed, a parent can request private counseling outside school hours for a fee.

If you have any questions or concerns, contact me at angelle@accendocounseling.com
